POWERSILK®
LOW STRETCH COPOLYMER MC²

240Yds

ULTIMATE POWER

The Strongest Low Stretch Multi-Coated Copolymer MC² :
Thanks to its advanced technology, this line combines both advantages to be Amazingly Strong and Powerful, Soft & Easy Casting. Accurate diameters.

HYPER LOW STRETCH 11% for amazing SENSITIVITY

The Multi-Coating process MC² softens the line and gets it very smooth, and the advanced copolymer formula adds toughness and abrasion resistance.

Trouble Free Casting & Twisting due to Digital Precision Winding Process PW-S® allows easy and accurate casting. When using, the line stays straight without any twisting or torsion.

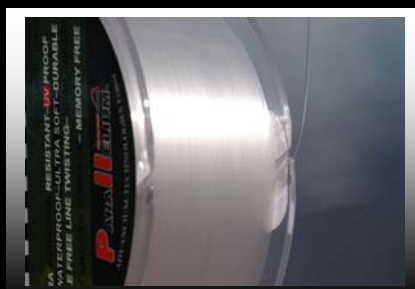

No Memory & Controlled Tension [NSCTsystem®](#)
